Academic Integrity Declaration

AUTOSAR HLD Intelligence & Traceability Assistant | Student declaration | Editable signature form

Student and project details

Field	Student to complete
University	SASTRA Deemed University (confirm if required)
Student name	GURU S
Register number	127003080
Programme / Department	B.Tech CSE
Project title	AUTOSAR HLD Intelligence & Traceability Assistant
Date	13-10-2026

Declaration

I declare that the capstone submission titled “AUTOSAR HLD Intelligence & Traceability Assistant” is an honest account of the work completed by me and my team, as applicable. I have accurately represented the work performed, individual contributions, implementation status, evaluation results, and known limitations. I have not knowingly fabricated experimental results or presented generated examples as real-world engineering evidence.

I will cite external code, datasets, models, documents, and other sources used in the submission. I will disclose AI tools and pre-trained models used, including tools used for coding assistance, in the separate AI-Tool Usage Declaration. I understand that AI-assisted output must be reviewed and verified by me, and that I remain responsible for the correctness and explainability of the submitted work.

I understand that the evaluator may ask me to explain the system design, implementation, prompts, configuration, tests, results, and any AI-generated or externally sourced artifacts included in the submission.
